Visakhapatnam, India

## Skills

---

**Languages and Technologies (Intermediate) :**  
C, Python, My sql, Excel, HTML, SPSS, R

## Projects

---

### Statistical Analysis

*Factors Influencing Usage Of Social Media Among Student Community*

- Worked with SPSS Software, ensuring efficient Analysis management and optimal performance. Utilized SPSS Analyze options like Descriptive Statistics, Frequencies, Chi-Square through Cross tabs, Dimension Reduction for Factor Analysis.
- This project given me strong understanding of SPSS Software, including the effective use of Rotated matrix, KMO(Kaiser-Meyer-Olkin) and Bartlett test.

### Dashboard Development for BlinkIt

*Technologies Used: Power BI*

- Developed an interactive dashboard using Power BI, providing real-time insights into sales, purchases, and product performance for BlinkIt.
- Created key performance indicators (KPIs) for sales and purchases, enabling management to monitor and react to critical business metrics quickly.
- Focused on creating a clean and intuitive dashboard layout, making it easy for stakeholders to interpret data and generate reports.

### Personal Portfolio Website Development

*Technologies Used: HTML, CSS, JavaScript*

- Developed a visually appealing and fully responsive personal portfolio website using HTML and CSS, ensuring optimal display on all devices.
- Utilized JavaScript to create interactive buttons and dynamic elements, enhancing user engagement and providing a seamless browsing experience.
- Designed and implemented custom CSS styles to reflect personal branding, showcasing creativity and attention to detail.
- Strategically organized content to highlight skills, projects, and achievements, making it easy for visitors to navigate and find information.
